

INVITATION

Dear our model-making friends, Hereby we'd like to invite you,
your family and friends to our 11th International Model
exhibition and Competition which is held on 14th-15th April 2007.

Soon another year will pass and we will again hold our show for the lovers of model-building. In 2006 guests from 15 countries and nearly 1700 models took part in our show and in the different category races. It was a major pleasure for us to see the sofar most works in our jubilee show/race. Probably even the most guests found delight in the beautiful models. Considering last and the years before shows/races we would like to advertise our show/race in 2007, and hold several other programs for our guests. Our main goal would be accomplished if everyone would (again) go home satisfied and with a nice remembrance of Mosonmagyaróvár. The construction of the programs are already in progress, and besides several others you can take a survey to see a hungarian built (real size) Tiger I. replica!

EVALUATION:

from 14⁰⁰ o'clock on 14th April 2007

The jury will stand from 5 country's acclaimed model-builders. The 3-3 membered group will together be raising the categories best rated works. After this in the larger venue categories the members of the jury will separately score the raised models. After counting the points we will get the final summary. Normally the first 6 best will get a prize (except for the master category where there a strict scoring will be held for the named works. But in categories in which several high quality models take part, there can be ties. In case of categories with just a few models taking part the jury system of 'like it' 'don't like it' could be held.

The members of the jury will only touch the models in reasonable cases, naturally in gloves. The raised, but because of the strong category, not prized models will get a 'significantly pretty, nice work' diplom from the Mosonmagyaróvárian Model-builder Club to acknowledge the model builder. The yellow coloured 'prized work' tables will be placed nearby the category's best models. We only ask for documentations in special cases (as f.e.: special paintjob, conversion, wrecking, etc.)
